WELCOME TO HUMANITY'S COSMIC MOMENT

UFO / UAP Disclosure

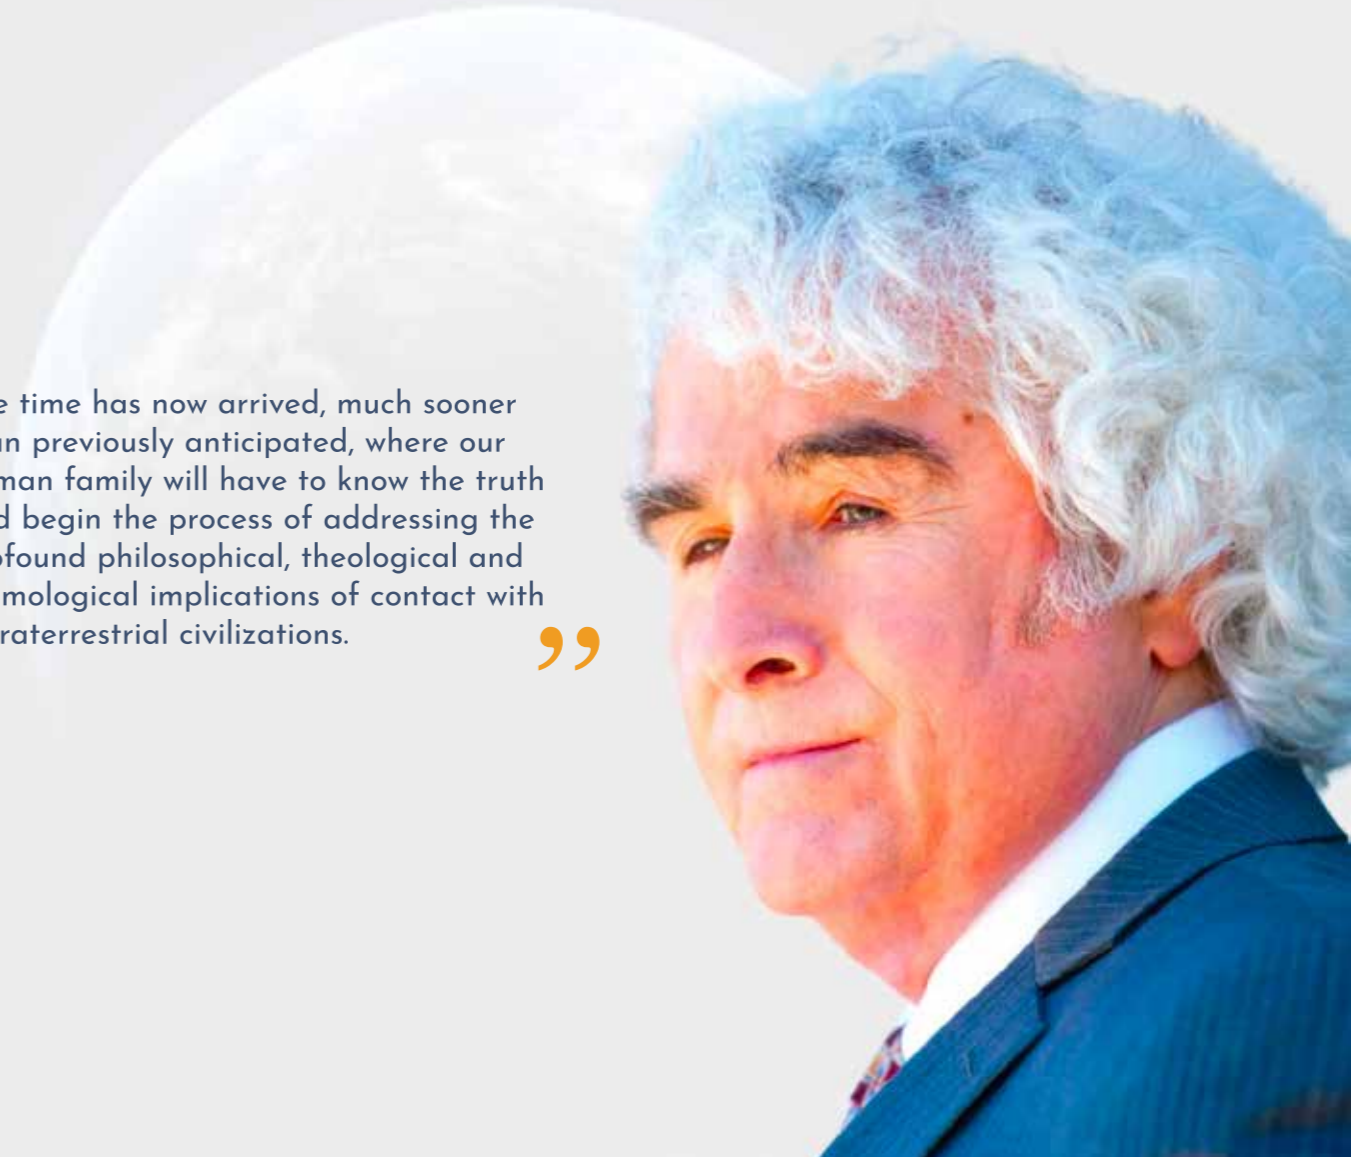

The New Paradigm Institute, founded by acclaimed civil rights and Constitutional attorney Daniel Sheehan, is dedicated to securing the public release of information held by the government pertaining to Unidentified Flying Objects and advanced Extra-Terrestrial non-human intelligence, or UAP (Unidentified Anomalous Phenomena).

“

The time has now arrived, much sooner than previously anticipated, where our human family will have to know the truth and begin the process of addressing the profound philosophical, theological and cosmological implications of contact with extraterrestrial civilizations.

”

Daniel P. Sheehan
President, New Paradigm Institute

OUR MISSION

"The mission of the New Paradigm Institute is to inform the public of the true facts surrounding UFOs/UAP and to mobilize citizens to secure full and responsible disclosure of the information about UFO technology and nonhuman intelligent visitors held in secret from the Congress for 80 years by the military/intelligence/aerospace industry complex.

We will employ litigation, policy development and implementation, deep research, public and academic education, and grassroots organizing (both nationally and internationally).

This initiative of the Romero Institute is motivated by a desire to unite the human family and deconstruct the unjust social and economic structures on our planet, eliminate nuclear weapons and restore our living biosystems as we take our place in a galactic civilization."

OUR INITIATIVES

RESTORING PUBLIC TRUST THROUGH EDUCATIONAL OUTREACH AND GRASS-ROOTS MOBILIZATION

Transparency in matters of national and global significance is fundamental to healthy democracies. By advocating for the release of UFO/UAP information, we seek to restore public trust in government institutions. This transparency is not just about UAPs; it's about reinforcing the principles of openness and accountability in all areas of governance. Through a vigorous grassroots campaign, live events, webinars, and a higher education credentialing program, NPI will share credible facts with the public concerning UFO/UAP, thereby fostering a healthier democratic culture.

ADVANCING SCIENTIFIC INQUIRY

The acknowledgment and study of UFOs/UAPs can open new frontiers in scientific research. Understanding these phenomena could lead to breakthroughs in technology, energy production, physics, and our comprehension of reality itself. By demanding disclosure, we are advocating for a leap in scientific progress.

RESEARCH AND DOCUMENTATION

To substantiate our advocacy, we are conducting in-depth research and compiling comprehensive documentation on UFO/UAP incidents and government responses worldwide. This repository of information will serve as a critical resource for policymakers, researchers, and the public, providing a factual basis for our Calls to Action for disclosure.

STRATEGIC LITIGATION FOR INFORMATION RELEASE

As a fifty-year law and policy center, we will investigate the potential use of strategic litigation in the disclosure process, and we will offer legal services to whistleblowers.

POLICY DEVELOPMENT AND LEGISLATIVE ADVOCACY

We are actively involved in shaping policies and legislation related to UFO/UAP transparency. By working with lawmakers and policy experts, we strive to ensure that new laws and regulations are informed, effective, and in the public interest.

GLOBAL COLLABORATION

The issue of UAP transcends national borders. It is a global mystery that requires global solutions. By pushing for disclosure, we are advocating for international cooperation and dialogue. We seek a global treaty for disassembling nuclear weapons and using space technology for only peaceful purposes benefiting all humanity.
